could you try MDR again and see if AMPss are available? Thanks.

>>> GAIL SEXTON 12/21/04 02:54PM >>>

Larry,

I e-mailed our contact with First Data Bank for current pricing on Neurontin, one of the OIG report's "high volume, not on FUL list drug" - I put together this Excel chart which looks like we cannot add Neurontin at this time, because FUL is higher than AWP (except for brand) - this is a prime example of "manual verification" which has made a drug ineligible.

This is just fyi - I will send you the OIG report with tracked changes by tomorrow -
